SUBMISSION UNDER 37 C.F.R. \$1.11

Sir,

Applicant hereby submits a request for continued examination under 37 C.F.R. §1.114. It is respectfully requested that the following remarks and arguments be entered and considered for further prosecution of the above mentioned application.

REMARKS

The specification on page 1 and 3 has been amended to change the patent number which was inadvertently mistyped, and also to include "these as well as further objects" to further clarify the application and introduce no new matter. The Examiner has rejected claims 1-9 based on 35 USC \$102(e) as being anticipated by Pfrengle (5,981,543). The current application is a divisional of application No. 09/272,916, new patent number
